

LOT 29 — Tensile Testing Machine (AMSLER)

Ex-Erasteel Vikmanshyttan, Sweden — last calibrated 2022

Hilco Industrial offers this **AMSLER tensile testing machine** from the former Erasteel Vikmanshyttan plant. Used for mechanical testing of high-speed steel strip samples, the machine retains documented calibration records with last calibration in 2022.

Make	AMSLER
Serial no.	1033 / 163
Last calibration	2022
Type	Universal testing machine

AMSLER tensile testing machine, Erasteel Vikmanshyttan

What it does

A universal tensile testing machine for mechanical property measurement of strip, wire, and flat test pieces — measuring ultimate tensile strength, yield strength, elongation, and other mechanical properties to relevant material standards. Calibrated to 2022.

Suitable applications

Quality control and R&D; testing of HSS, tool steel, and specialty alloy strip. Calibrated to 2022 — suitable for continued use in a QC laboratory after relocation.

Investment case

Calibrated (2022) AMSLER tensile testing machine with documented calibration records — offered at a fraction of comparable new equipment cost.

Inspection available. Contact Hilco Industrial for site access. Full technical documentation, drawings and specifications are made available to qualified prospects under NDA.

Scope and condition. Equipment is offered on an as-is, where-is basis. Full inclusions and exclusions schedule, equipment drawings, and technical specifications are made available under NDA. Inspection of the site in Vikmanshyttan, Sweden, can be arranged for qualified prospects.
