WMW roll grinder, Erasteel Vikmanshyttan

### What it does

A cylindrical precision roll grinder for regrinding cold rolling mill work and backup rolls, restoring roll diameter, profile and surface finish to keep mill gauge and strip surface quality under control.

### Suitable applications

Roll shop maintenance for cold rolling mills, and general cylindrical grinding of shafts and rotationally symmetric components in workshop environments.

### Investment case

A robust WMW roll grinder — offered at a fraction of comparable new equipment cost. Combine with Lot 21 and the TOS surface grinder (Lot 22) for a complete roll shop.

**Inspection available.** Contact Hilco Industrial for site access. Full technical documentation, drawings and specifications are made available to qualified prospects under NDA.

**Scope and condition.** Equipment is offered on an as-is, where-is basis. Full inclusions and exclusions schedule, equipment drawings, and technical specifications are made available under NDA. Inspection of the site in Vikmanshyttan, Sweden, can be arranged for qualified prospects.
